This Offer Document sets forth concisely the information about the Fund that a prospective investor ought to know before investing. This Offer Document should be read before making an application for the Units and should be retained for future reference.

Investing in the IDLC Balanced Fund (hereinafter the Fund) bears certain risks that investors should carefully consider before investing in the Fund. Investment in the capital market and in the Fund bears certain risks that are normally associated with making investments in securities including loss of principal amount invested. There can be no assurance that the Fund will achieve its investment objectives. The Fund value can be volatile and no assurance can be given that investors will receive the amount originally invested. When investing in the Fund, investors should carefully consider the risk factors outlined in the document.

The Sponsor, Asset Management Company or the Fund is not Guaranteeing any Returns.

The particulars of the Fund have been prepared in accordance with সিকিউরিটিজ ও একাডেমি কমিশন (মিউনিসিপাল ফাউন্ডেশন) বিধানমালা, ২০০১, as amended till date and filed with Bangladesh Securities and Exchange Commission.

The investors are advised, in their own interest, to carefully read the contents of the Prospectus, in particular the risk factors before making any investment decision.

RISK FACTORS

Investors should know that IDLC Balanced Fund is not a guaranteed or assured return scheme and the past performance of the Sponsor and their affiliates / AMC does not guarantee future performance of the Scheme. The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns. Investing in the IDLC Balanced Fund involves some general risks and some scheme specific risks that investors should carefully consider before investing in the Fund.

General Risk Factors:

I. Due to the fluctuation of the price / value / interest rates of the securities in which Scheme invests, the value of investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets.

II. Government policy and tax laws may change, affecting the return on investments of the fund, which may eventually affect the NAV and return of the Units.

III. Large number of redemption requests, may lead to an asset-liability mismatch and therefore may require the investment manager to make a quick sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

IV. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme remain idle and no return is earned thereon. The inability of the Scheme to make intended securities purchases and sales, due to settlement problems, could cause the Scheme to miss certain investment opportunities.

Risk factors associated with investing in equities and equity related instruments:

I. Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis.

II. Securities, which are not listed on the stock exchanges, are illiquid in nature and entails higher liquidity risk, in comparison to securities that are listed on the exchanges.

III. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges.

IV. Despite careful investment selection of companies in the Fund, if the companies fail to provide the expected dividend or fail to disburse the dividends declared in a timely manner, this will impact the income of the Fund and the overall return of the Fund.

Risk factors associated with investing in Fixed Income Securities:

I. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market instruments, will be affected by changes in the general level of interest rates.

II. Money market instruments lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.

III. Investment in debt instruments are subject to credit risk i.e. the risk of an issuer’s inability to meet interest or principal payments on its obligations, which may have their credit ratings downgraded. Changes in financial conditions of an issuer or changes in economic and political conditions specific to the issuer are factors that may affect an issuer’s credit quality and security values.
IV. Government securities have price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.

V. As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates and are subject to default risk of the issuer. Therefore, the interest rate risk of zero coupon securities is higher.

VI. Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

THE MUTUAL FUND IS NOT GUARANTEEING OR ASSURING ANY RETURNS
CHAPTER 1: PRELIMINARY

1.1 Publication of Prospectus for Public Offering

IDLC Asset Management Limited (IDLC AML) has received the Asset Management License from the Bangladesh Securities & Exchange Commission under Bangladesh Securities & Exchange Commission Act, 1993 made there under and also received consent for issuing prospectus for public offering. A complete copy of the prospectus of the public offering is available for public inspection at South Avenue Tower (5th Floor), Unit No. 502, House No. 50, Road No. 03, 7 Gulshan Avenue, Dhaka-1212, (Corporate Office of IDLC AML) – the asset manager of the IDLC Balanced Fund, hereinafter referred to as the Fund.

1.2 Consent of the Bangladesh Securities and Exchange Commission

1.3 Listing of the Fund

The Fund, being an open-end one, will not be listed with any stock exchange of the country. Hence the units of the Fund will not be traded in the stock exchanges unless otherwise BSEC and Stock Exchanges make arrangement in future. In that case, public communication will be made as per BSEC’s approval.

The securities will be kept in dematerialized form in Central Depository Bangladesh Limited (CDBL) to facilitate the holding and transfer of the units of the Fund. Units will always be available for sale and surrender/repurchase except on the last working day of every week and during book closure period / record date of the Fund at the corporate office of IDLC AML and the authorized selling agents. 1.6 General Information

I. This prospectus has been prepared by IDLC Asset Management Limited based on the Trust Deed executed between the Trustee and the Sponsor of the Fund, which is approved by the Commission and available publicly. The information contained herein is true and correct in all material aspects and there are no other material facts, the commission of which would make any statement herein misleading.

II. No person is authorized to give any information to make any representation not contained in this prospectus and if so given or made, such information or representation must not be relied upon as having been authorized by IDLC Asset Management Limited.

III. The issue as contemplated in this document is made in Bangladesh is subject to the exclusive jurisdiction of the court of Bangladesh. Forwarding this prospectus to any person residing outside Bangladesh in no way implies that the issue is made in accordance with the laws of that country or is subject to the jurisdiction of the laws of that country.

1.7 Sale and Repurchase of Units

IDLC AML will maintain two separate BO Accounts with Investment Corporation of Bangladesh, custodian of IDLC Balanced Fund for creation and redemption of units namely “IDLC Balanced Fund - Sale of units” and “IDLC Balanced Fund – Repurchase of units”.

For sale of units, IDLC AML will issue a certificate for the units sold and send it to ICB for setting up of demat request. After the acceptance of demat setup by IDLC AML from its terminal, units will be credited to the BO Account of “IDLC Balanced Fund - Sale of units”. Then ICB will transfer the units from “IDLC Balanced Fund - Sale of units” to the unit holders’ BO Accounts as per instruction of IDLC AML.

In the case of redemption / repurchase by the Asset Manager, the unit holder will transfer his / her / the Institutional holder’s units to the “IDLC Balanced Fund – Repurchase of units”. ICB will debit the units from the investor’s BO Accounts and transfer it to the “IDLC Balanced Fund – Repurchase of units”. Simultaneously, the payment will be made through A/C payee Cheque or funds will be transferred to investor’s Bank Account through BEFTN as per the request of the client.

1.8 Systematic Investment Plan (SIP)

A Systematic Investment Plan or SIP is a smart and hassle free mode for investing money in mutual funds. SIP allows an investor to invest a certain pre-determined amount at a regular interval (monthly, quarterly, yearly etc.). A SIP is a planned approach towards investments and helps to inculcate the habit of saving and building wealth for the future.

Buy and Surrender in SIP Process:

An investor can invest through SIP either by auto debit system provided against investor’s Bank Account or by providing monthly predetermined cheques via selling agents at a regular interval (monthly, quarterly, yearly etc.). Investor must have a BO Account; he / she will get the SIP units in his / her BO Account and may get a discount from ongoing Weekly “Investor’s Buy Price” of the mutual fund.
It is advisable to continue SIP investments with a long-term perspective, there is no compulsion. Investors can discontinue the plan at any time. If an investor wants to terminate the SIP before two (2) years, 1% discount from the “Investor’s sale / surrender price” may be applicable on total accumulated invested amount on the date of cancellation of the scheme. After maturity of SIP, the investor can easily surrender his / her total units through the AMC or the Selling Agents.

**Benefits may be offered for Investors such as:**

SIP encourages a disciplined investment; while invested through SIP, investor commits himself / herself to save regularly. Different benefits may be offered as follows:

- **Flexibility:** Investor can start SIP with a very small amount that is 1,000/2,000/3,000/4,000/5,000 or multiple of 500 / 1000. One can also increase/ decrease the amount being to be invested in regular fashion.

- **Flexible SIP Tenor:** The SIP will be offered for at least 2 years or any other higher period set by the AMC. However, investor can set SIP scheme for 3 years / 5 years / 7 years / 10 years. After this period, the individual scheme will be matured and may surrender or continue after maturity. If surrendered, no fees /charges may be charged on surrender and may also offer highest premium over the declared surrendered price at that time.

- **No Minimum lot size:** There will be no minimum lot size under the SIP as like normal investors. Based on “Investor’s Buy Price” per unit available for SIP investors, units will be credited to investor’s BO account. However, any fraction amount remaining will be converted when it sums up to one unit. The fractional amount will be kept as liability of the fund in a separate account head.

- **Buy at discount and Surrender at premium:** SIP investor may buy units at a discount from Weekly “Investor’s Buy Price” offered to the normal investors. In addition to that, SIP investor may surrender at a premium of repurchase price offered to normal unit holders at maturity as per SIP brochure.

- **CIP option for the SIP investors:** SIP investors can choose either option of cash dividend or cumulative investment plan (CIP). If a SIP investor chooses CIP (i.e. Dividend reinvestment process) instead of cash dividend, they may also enjoy CIP units at a discount of prevailing “Investor’s Buy Price” used for CIP conversion. After CIP conversion, they will get dividend on total number of units in the next year.

**Detailed of SIP Scheme, Scheme information will be provided in the Scheme Brochure in future**

CHAPTER 2: BACKGROUND

2.1 Preamble to the formation of IDLC Balanced Fund

Mutual Fund is an investment tool that collects pool of fund from individual and institutional investors with a view to investing the fund in securities like stocks, bonds, money market instruments and other securities. Mutual funds are the most cost effective way to diversify the investment portfolio across different asset categories. Moreover, mutual funds offer professional money management expertise at a reasonable cost. Especially in a developing country like Bangladesh where mass people are ignorant about investment management strategies, importance of such professional management services are beyond question.

The origin of mutual funds are often cited to be traced in Europe back in 19th century. By the time mutual fund industry grew enormously with innovation of different investment strategies catering the need of different types of investors.

In Bangladesh, Mutual fund was first introduced by Investment Corporation of Bangladesh (ICB), a public sector financial institution, in 1980. Later on, private companies started to enter the industry in 2000. There are only 36 close end mutual funds and 24 open end mutual funds in Bangladesh and total AUM is approximately BDT 93.12bn as on February 2017, while in India Asset under Management is approximately BDT 20,823.9 bn as on December 2016.

Recognizing the huge untapped market potential of mutual fund industry in Bangladesh and the need to offer a reliable solution for investment to the general people, IDLC Finance Limited has decided to sponsor an open-end mutual fund namely “IDLC Balanced Fund” which will be managed by IDLC Asset Management Limited. Investment Corporation of Bangladesh (ICB) will act as the trustee and custodian of the Fund.

2.2 Necessity of Unit Fund in the Context of the Current State of Affairs of the Capital Market of Bangladesh

The capital market of Bangladesh is still in a nascent stage which portrays both opportunities and challenges. Though stock exchanges were formally established as early as 1954, activities remained very low until 1990s. Market experienced both bubble and burst during its journey of around six decades. Though over the years the capital market is transforming into a more structured and regulated form, it is still lagging behind in terms of number of stocks listed, asset classes available for investment etc. In emerging markets like Bangladesh where mass people lack the knowledge of proper investment decision, the scope of mutual fund industry, that offers professionally managed investment management service, is very bright. The mutual fund industry of Bangladesh is still very small compared to other countries.

The global Asset under Management (AUM) stood at USD 32.2 trillion in 2015. Mature economies like United States and United Kingdom have developed a high AUM/GDP ratio over the years around 91.01% and 39.55% respectively. In regional counterparts, like India and China, this ratios are 6.57% and 6.85% respectively. The AUM/GDP ratio is only 0.24% in Bangladesh.

2.3 Advantages of Investing in IDLC Balanced Fund

IDLC Balanced Fund will be managed in a manner that will ensure utmost benefit for the investors from their investment. Generally mutual funds are designed in such a way that reduces the risk of investment compared to direct investment in other securities like shares, debt instruments etc. In addition investors will enjoy the following advantages from investing in “IDLC Balanced Fund”:

I. IDLC Asset Management Limited through its proper corporate governance culture will ensure proper compliance with best practices and processes prescribed under all circumstances.

II. IDLC Balanced Fund will ensure a proper mix of equity and debt instruments according to different investment scenario in market with a view to ensure stable current income as well as capital appreciation in the long term.

III. The fund will maintain a diversified portfolio through adequate professional knowledge which will reduce individual investment risk that would have been otherwise difficult through direct investment.

IV. Experienced professional management will help identify and secure potential investment opportunities.

V. The fund will offer minimum 70% of annual realized profit as cash dividend on regular basis. However, investors will have the discretion of choosing between cashing out the dividend and reinvesting the dividend through purchasing new units.

VI. Investors can hold larger number of securities through holding a single unit of the fund without having to incur high transaction cost like brokerage fee.

VII. Mutual funds enjoy 10% reserved quota in Initial Public Offerings (IPOs) under the current rules provided by the BSEC, which enables the investors to enjoy the benefits of participating in IPOs indirectly.

VIII. Dividend income from this Fund will be tax free up to BDT 25,000.00 (Twenty Five Thousand Taka) as permitted by the Finance Act.

IX. As open-end fund is not traded in the secondary market, its price will not be subjected to the interaction of demand and supply. As sales and repurchase price will be calculated based on Net Asset Value (NAV) as prescribed in the Securities and Exchange Commission (Mutual Funds) Regulations, 2001, the price of the fund will be more stable than that of other securities traded in secondary market.

2.4 Tax Advantages

Investment in this Fund by individual investors will enjoy tax exemption benefit under Section 44(2) of the Income tax Ordinance, 1984. Country’s Finance Act and Government’s tax policies will always determine the tax benefits from investment in mutual funds. However, investors in mutual funds are entitled to the following tax benefits under the current tax policies:

1. Tax advantage on Income:

   Income from a mutual fund or a unit fund up to BDT 25,000.00 (Twenty Five Thousand Taka only) is exempted from tax as per clause 22A of 6th Schedule (Part A) under Income Tax Ordinance, 1984.

2. Investment Tax Credit:

   According to the Section 44(2)(c) under Income Tax Ordinance, 1984, the amount of allowable investment is actual investment or 25% of total taxable income or BDT 1,50,00,000.00 (Taka One crore & Fifty Lac only), whichever is lower.
According to the Section 44(2)(b) under Income Tax Ordinance, 1984, the tax rebate rate is from 15% to 10% as per following schedule:

<table>
<thead>
<tr>
<th>Total Taxable Income</th>
<th>Rate of Tax Rebate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to BDT 10,00,000.00</td>
<td>15% of eligible amount</td>
</tr>
<tr>
<td>From BDT 10,00,001.00 to BDT 30,00,000.00</td>
<td>i. BDT 2,50,000.00 of eligible amount at the rate of 15%</td>
</tr>
<tr>
<td></td>
<td>ii. Remaining of the eligible amount at 12%</td>
</tr>
<tr>
<td>Above BDT 30,00,000.00</td>
<td>i. BDT 2,50,000.00 of eligible amount at the rate of 15%</td>
</tr>
<tr>
<td></td>
<td>ii. Next BDT 5,00,000.00 of eligible amount at the rate of 12%</td>
</tr>
<tr>
<td></td>
<td>iii. Remaining of the eligible amount at 10%</td>
</tr>
</tbody>
</table>

**Example:**

An individual’s total taxable income is BDT 32,00,000.00 (Taka Thirty Two Lac only) in a year and actual investment is BDT 20,00,000.00 (Taka Twenty Lac only). His eligible investment for tax rebate will be the lowest amount of the following figures:

- i. Actual Investment: BDT 20,00,000.00
- ii. 25% of total taxable income: BDT 8,00,000.00 (25% x BDT 32,00,000.00)
- iii. Maximum eligible investment: BDT 1,50,000,000.00

Considering the above three figures, the eligible investment will be BDT 8,00,000.00 (Taka Eight Lac only).

As his total taxable income is above BDT 30,00,000.00, so the total tax rebate for the individual will be calculated as follows:

- First BDT 2,50,000.00 of eligible amount at the rate of 15% = BDT 37,500.00 (15% x BDT 2,50,000.00)
- Next BDT 5,00,000.00 of eligible amount at the rate of 12% = BDT 60,000.00 (12% x BDT 5,00,000.00)
- Remaining of the eligible amount (BDT 50,000.00) at the rate of 10% = BDT 5,000 (10% x BDT 50,000.00)

Total Rebate BDT 1,02,500.00

The investor can reduce his tax liability of BDT 1,02,500.00 (Taka One Lac Two Thousand & Five Hundred only) by investing in the mutual fund.

**Note:**

THIS IS A SIMPLE ILLUSTRATION. THE AMOUNT CAN VARY AND WILL DEPEND ON INDIVIDUAL CIRCUMSTANCES. ALSO, PLEASE NOTE THAT THE TAX REBATES MAY CHANGE AS PER GOVERNMENT’S DECISION IN ANY YEAR. INVESTORS ARE ADVISED TO CONSULT WITH THE TAX ADVISOR, IF REQUIRED.
CHAPTER 3: IDLC BALANCED FUND

3.1 Formation of the Fund

The Trust Deed of the Fund was registered on February 05, 2017 under the Trust Act, 1882 and Registration Act, 1908 through a Trust Deed entered into between IDLC Finance Ltd. and Investment Corporation of Bangladesh (ICB). The Fund was registered by the BSEC on March 07, 2017 under the Investment Corporation Act, 2001.

3.2 Life of the Fund

The Fund will be an open-end mutual fund with a perpetual life established to broaden the base of investment and develop the capital market. Institutional (local and foreign) and individual investors (resident and non-resident) are eligible to invest in this Fund.

3.3 Size, Face Value and Denomination

The initial target size of the Fund will be BDT 50,00,00,000.00 (Fifty Crore Taka only) divided into 5,00,00,000 (Five Crore) units of BDT 10.00 (Ten Taka only) each. Size of the Fund will be increased from time to time by the Asset Manager subject to approval of the Trustee and with due intimation to the BSEC.

Face value of each Unit will be BDT 10.00 (Ten Taka only).

Initially, unit holders of the Fund shall be issued with a Confirmation of Unit Allocation letter by the Asset Manager at the cost of the Fund in any denomination but not less than 500 (five hundred) units for individuals and 5,000 (five thousand) units for institutions.

3.4 Investment Objective

The objective of the IDLC Balanced Fund is to generate capital appreciation along with current income in the form of dividend from a combined portfolio of equity, debt and money market instruments.

- The Fund shall not buy its own unit.

### Investment Decision

Only the Asset Management Company will make the investment decisions and place orders for securities to be purchased or sold for the Scheme’s portfolio.

### 3.6 Valuation policy

As per section 58 of the Investment and Securities Commission (Investment Fund) Regulation, 2001, the fund shall fix the valuation method for the Scheme subject to the prior approval of the Commission. The investment valuation policy of the Fund will be as follows:

<table>
<thead>
<tr>
<th>Listed Securities</th>
</tr>
</thead>
<tbody>
<tr>
<td>For listed securities, the average quoted closing price on the stock exchanges on the date of valuation shall form the basis of any calculation of Net Asset Value of such securities in the portfolio of the Fund.</td>
</tr>
<tr>
<td>For Listed Securities not traded in the Stock Exchanges on the particular valuing date, immediate previous average quoted closing price, which one is nearer but no longer than one month, to the valuing date will be taken into account.</td>
</tr>
<tr>
<td>For Listed Securities not traded within previous one month will be made based on their reasonable value by the Asset Management Company and approved by the Trustee and commented upon by the Auditor in the Annual Report of the Scheme of the Mutual Fund but shall not be more than the intrinsic value of the securities.</td>
</tr>
</tbody>
</table>
Non-listed Securities

- The Fund shall follow the method approved by the Commission for valuation of the non-listed investment, if any, and the Asset Management Company and the Trustee shall periodically review the non-listed investment (if any). The auditors shall comment on such investment in the annual report of the Scheme of the Fund.
- The Asset Management Company and the Trustee will value the non-listed securities at least once in every three months.
- Once non-listed securities are valued, the valued amount will be considered for purpose of valuing the Fund’s assets in any interval of time until the securities are further revalued by the Asset Management Company.

Others

- For securitized debts, debentures, margin or fixed deposits, the accrued interest on such instruments on the date of valuation shall be taken into account in the calculation of Net Asset Value of such securities in the portfolio of the Fund.
- In case of deferred expenses, accrued expenses for the period will be taken into account for determining total liabilities of the fund.

Net Asset Value (NAV) calculation:

The Fund intends to determine its NAV per unit on the last business day of each week by dividing the value of the net asset of the Fund (the value of total assets less total liabilities as per Rule 60 of the Securities and Exchange Commission (মিউড্যুয়াল ফান্ড বিভিন্নলা, ২০০১) by the total number of outstanding units. The Fund will use the following formula to derive the NAV per unit:

\[
\text{Total NAV} = VA - LT
\]

\[
\text{NAV per unit} = \frac{\text{Total NAV}}{\text{No. of outstanding units}}
\]

\[
VA = \text{Value of all securities in vault} + \text{Value of all securities placed in lien} + \text{Cash in hand and at bank} + \text{Value of all securities receivables} + \text{Receivables of proceeds of sale of investments} + \text{Dividend receivables net of tax} + \text{Interest receivables net of tax} + \text{Issue expenses amortized as on date} + \text{Printing, publication and stationery expenses amortized as on date}
\]

\[
LT = \text{Value of all securities payable} + \text{Payable against purchase of investments} + \text{Payable as brokerage and custodial charges} + \text{Payable as Trustee fees} + \text{All other payable related to printing, publication and stationery} + \text{Accrued deferred expenses with regard to management fee, annual fee, audit fee and safe keeping fee}
\]

3.7 Limitation of Expenses

I. All expenses should be clearly identified and appropriated to the Fund.

II. The Asset Management Company may charge Fund for Investment Management and Advisory fees as per the Securities and Exchange Commission (মিউড্যুয়াল ফান্ড বিভিন্নলা, ২০০১).

III. The Asset Management Company may amortize the initial issue costs of the Fund over a period of 7 (seven) years on a straight line method provided that initial issue expenses / Initial Public Offering (IPO) costs shall not exceed 5% of the collected amount raised under the Fund.
IV. In addition to the fees mentioned hereinabove, the Asset Management Company may charge the Scheme of the Fund with the following recurring expenses, namely:

a. Marketing and selling expenses including commissions of the selling agents, if any;
b. Brokerage and Transaction costs;
c. Cost of registrar services for transfer of securities sold or redeemed;
d. Trusteeship fees;
e. Custodian fees;
f. Dematerialization fees and others (if any);
g. Re-registration fees (if any);
h. Relevant expenditure for calling meeting by the trustee committee; and
i. Other expenses applicable to the Mutual Fund.

V. The expenses referred to hereinabove and any other fees payable or reimbursable to the Asset Management Company or the Trustee shall be charged to the open-end Mutual Fund.

3.8 Price Fixation Policy

After completion of initial subscription, the Fund will be made open to the investors for regular buy-sell of Units. The date of re-opening shall be declared by the asset manager upon approval of the Trustee and with due intimation to the BSEC.

The asset manager shall calculate the Net Asset Value (NAV) per unit on the last working day of every week as per formula prescribed in the and shall disclose sales price and repurchase / surrender price per unit determined on the basis of NAV before commencement of business operation of the first working day of the following week to the Commission and to the investors through at least one national daily, the website of the asset management company and the authorized selling agents of the Fund. In case of holidays, the Asset Management Company shall notify the same on the next working day.

The difference between sales price and repurchase price will be decided by the Board of Directors of the Asset Management Company and shall not be more than 5.0% of the sales price per unit. The unit holders may surrender their units during the business hour as specified by the Asset Management Company. The Fund shall be liable to repurchase the units at the repurchase price determined by the Asset Management Company. Sale and repurchase of units by the Asset Management Company shall remain closed during the book closure period of the fund unless the Commission decides otherwise.

3.9 Sale & Repurchase Procedure

I. The Units of IDLC Balanced Fund may be bought / surrendered through IDLC Asset Management Limited and authorized selling agents appointed by the Asset Manager from time to time and any other procedure as prescribed by the Asset Manager. Surrender of units is allowed only through IDLC AML or the selling agents from which the units are originally purchased.

II. Minimum purchase amount during public subscription is –

- For individual investors: BDT 5,000.00 (Five Thousand Taka) against 500 units
- For institutional investors: BDT 50,000.00 (Fifty Thousand Taka) against 5000 units

The minimum subscription amount for the individual or institution may change in the future upon due approval from the trustee.

III. Application for purchase of units should be accompanied by an account payee cheque / pay order / bank draft in favor of ‘IDLC Balanced Fund’ for the total value of units.

IV. After clearance / encashment of the cheque / pay order / bank draft, the applicant will be issued with a “Confirmation of Unit Allocation” against every purchase of units he / she / the institutional investor applies for; the units will also be delivered to the Unit holder’s respective BO A/C.
V. After receiving the surrender application form at the AMC’s office, the client will be paid within 5 (five) working days through account payee cheque / BEFTN upon client’s request.

VI. Partial surrender (fraction of total units held under a Unit Allocation Confirmation) is allowed without any additional cost subject to minimum surrender quantity is 500 (Five Hundred) units for individuals and 5,000 (Five Thousand) units for institutions. Upon partial surrender, the unit-holder will be issued with a new “Confirmation of Unit Allocation” representing the balance of his / her / its unit holding.

VII. All payments / receipts in connection with or arising out of transactions in the Units shall be in Bangladeshi Taka.

VIII. The redemption shall be made on first come first serve basis. If the redemption request on a particular day exceeds 1% of the outstanding unit, the Asset Manager may differ, if required, the redemption request over 1% for a maximum period of 7 (seven) working days. The Asset Manager shall proceed to sell adequate assets and / or arrange loan as it deems fit to pay the surrender money within the stipulated time in the best interest of the unit-holders.

3.10 Winding up Policy

3.10.1 Procedure of Winding Up

I. If the total number of outstanding units held by the unit holders after repurchase at any point of time falls below 25% of the actual units issued, the Fund will be subject to wound up.

II. The Fund may be wound up on the happening of any event, which, in the opinion of the Trustee with approval from the Commission, requires the Scheme to be wound up.

III. The Scheme may also be wound up if the Commission so directs in the interest of the unit holders.

IV. Where a Scheme is to be wound up in pursuance to the above, the Trustee and the Asset Management Company shall give simultaneously separate notice of the circumstances leading to the winding up of the Scheme to the Commission. If the winding up is permitted by the Commission, the Trustee and Asset Management Company shall publish the notice of winding up in two national daily newspapers including a Bangla newspaper having circulation all over Bangladesh.

3.10.2 Manner of Winding Up

I. The Trustee shall call a meeting within 30 days from the notice date of the unit holders of the Scheme to consider and pass necessary resolutions by three-fourth majority of the unit holders present and voting at the meeting for authorizing the trustee to take steps for winding up of the Scheme. Voting rights shall be the same as clause 7.4.1 of the prospectus. If it fails to have three-fourth majority mandate, the Commission shall have the power to supersede the mandate, if situation demands such.

II. The Trustee shall dispose of the assets of the Scheme of the Fund in the best interest of the unit holders provided that the proceeds of sale made in pursuance of the সিকিউরিটিজ ও এক্ষেত্রে কমিশন (মিউনিশিয়াল ফান্ড) বিধিমালা, ২০০১, shall in the first instance be utilized towards discharge of such liabilities as are properly due under the Scheme and after making appropriate provision for meeting the expenses connected with such winding up, the balance shall be paid to the unit holders in proportion to their respective interest in the assets of the Scheme as on the date when the decision for winding up was taken.

III. Within 30 (thirty) days from the completion of the winding up, the Trustee shall forward to the Commission and the unit holders a report on the winding up containing particulars, such as circumstances leading to the winding up, the steps taken for disposal of assets of the Scheme before winding up, expenses of the Fund for winding up, net assets available for distribution to the unit holders and a certificate from the auditors of the Scheme of the Fund.
3.10.3 Effect of Winding Up

On and from the date of the notice of the winding up of the Fund, the Trustee or the Asset Management Company, as the case may be, shall –

i. Cease to carry on any business activities of the open-end fund;

ii. Cease to create and cancel units of the open-end fund;

iii. Cease to issue and redeem units of the open-end fund.

3.11 Dividend Policy

i. The accounting year of the Fund shall be July 01 to June 30 or as determined by the Commission.

ii. The Fund shall distribute minimum 70%, or as may be determined by the Commission, from time to time, of the annual net profit of the Fund as dividend at the end of each accounting year after making provision for bad and doubtful investments.

iii. The Fund may create a dividend equalization reserve by suitable appropriation from the income of the Scheme to ensure consistency in dividend disbursement for each year.

iv. Before declaration of dividend, the Asset Management Company shall make a provision in consultation with the Auditor if market value of investments goes below the acquisition cost and the method of calculation of this provision will be incorporated in the notes of accounts.

v. Surpluses arising simply from the valuation of investments shall not be available for dividend.

vi. The Asset Management Company will dispatch the Dividend warrants, at the expense of the Fund, within 45 days from the declaration of such dividend and submit a statement within next 7 (seven) days to the Commission, Trustee and the Custodian.

vii. Before registration for transfer of ownership, a transferee shall not possess the right to any dividend declared.

viii. There will be a Cumulative Investment Plan (CIP) scheme in this Unit Fund. Under this scheme, a unit holder instead of receiving dividend may reinvest such accrued dividend income for purchasing Unit at a rate determined by IDLC Asset Management Ltd. The unit holders may change their dividend preference in future as per their need.
CHAPTER 4: INVESTMENT MANAGEMENT PROCESS

IDLC AML aims to generate return for investors through capital appreciation along with current income from a combined portfolio of equity, debt and money market instruments. In order to fulfill the investment objective, the asset manager will adjust the portfolio on a continuous basis by identifying the investment opportunities and risks through rigorous economic, market, sector and scrip level analysis.

4.1 Asset Allocation

As the objective of the fund is to maintain a balance between current income and growth in the form of capital appreciation, IDLC AML aims to allocate the fund between two broad categories of assets i.e. income generating assets and growth assets or assets with the potential of capital appreciation.

Income generating assets: Fixed income securities and high dividend yielding stocks that are expected to generate income on regular basis.

Growth assets: Stocks, predominantly and fixed income securities that are expected to generate capital gain through price appreciation.

The asset allocation (% of Net Assets) of the portfolio of IDLC Balanced Fund will be as follows:

<table>
<thead>
<tr>
<th>Type of Assets</th>
<th>Normal Allocation (% of Net Assets)</th>
<th>Normal Deviation (% of Net Assets)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Income Generating Assets</td>
<td>40.0%</td>
<td>±20.0%</td>
</tr>
<tr>
<td>Growth Assets</td>
<td>60.0%</td>
<td>±20.0%</td>
</tr>
</tbody>
</table>

In response to changing economic and market dynamics IDLC AML may adjust the portfolio, within the maximum band of 20%, in order to achieve greater risk adjusted return within the regulations set by the regulatory authority.

4.2 Types of Assets

IDLC AML will invest in equity and equity related instruments and fixed income securities maintaining a proper balance in order to achieve the objective of the fund. Following is a summary of the types of assets available in Bangladesh for investment:

i. **Equity**: A stock or any other security representing an ownership interest is called equity. Equity investments available in Bangladesh are as follows:
   - **Listed Equities**: Listed equities are companies whose shares are traded on stock exchanges.
   - **Pre-IPO Placement & IPO**: A fixed quota of 10% of each IPO is allotted to Mutual Funds. In addition to the investment in IPO, Fund can make investment in Pre-IPO placements which generally has a lock-in period as per BSEC guidelines.

ii. **Fixed Income Securities**: A security that provides a return in the form of fixed periodic payments and eventual return of principal at maturity. Fixed Income Securities in Bangladesh are as follows:
   - **Term Deposits**: Investment can be made in the form of term deposits in Banks and NBFIs.
   - **Bonds and Debentures**: The debt market of Bangladesh is very thin. Currently, there are only two listed bonds in Bangladesh - Subordinate 25% Convertible Bonds of BRAC Bank and IBBL Mudaraba Perpetual Bond. Besides, privately issued bonds and debentures can be accessed by the Fund under institutional arrangement.
   - **Government Securities**: Government securities includes Treasury Bills and Treasury Bonds. There are number of treasury bills available in Bangladesh for different maturities ranging from 14 days to 364 days. Treasury bonds are also available for different maturities e.g. 2-years, 5-years, 10-years, 15-years and 20-years. Government securities are risk free in nature as it is backed by government.
4.3 Asset Selection Process

Balanced Fund is positioned as a lower risk alternative to a pure equities scheme, while retaining some of the upside potential from equities exposure. The scheme provides the asset manager with the flexibility to shift allocations in the event of a change of view regarding asset classes. Investment selection process would be driven by IDLC AML’s investment philosophy, with each alternative passing intense scrutiny considering all internal and external factors affecting the return potential.

- **Investment Philosophy:** IDLC AML strongly believes that good corporate governance and adequate management capacity are the preconditions for any good investment. This is the investment philosophy that IDLC AML would adhere to before making any kind of investment decision.

IDLC AML will follow their internal investment philosophy while analyzing different asset classes for identifying investment opportunities.

Corporate governance is the system of rules, practices and processes by which a company is directed and controlled. It instills policies and rules for maintaining the cohesiveness of an organization. Good corporate governance ensures transparency, accountability and compliance within the organization.

Capacity of management refers to the ability of management to run a business successfully. IDLC AML believes that the management of the company should have the required strategic and technical abilities to help the company achieve its goals.

- **Equity Investment Analysis:** While selecting an equity for investment, a thorough analysis will be conducted including the economic factors, industry specific factors, and business specific factors. The analysis can be a ‘top-down’ approach which will start from addressing the current economic conditions, identifying the industries with future growth potential and finally selecting the appropriate company within the industry for investment based on company specific factors. The alternative approach can be ‘bottom-up’ which will start identifying a specific company with positive business specific attributes and then looking for favorable industry specific and economic factors for further investment decision support. IDLC AML will nurture the following investment selection process for equities:
  
  i. **Economic Analysis:** Economic indicators like GDP growth, per capita income, per capita consumption etc. helps to understand the dynamics of an economy and growth potential of businesses.
  
  ii. **Industry Analysis:** Industry analysis helps to understand the market share of companies, the degree of concentration and competition within the industry and growth prospects of the industry.
  
  iii. **Company Analysis:** Business dynamics like product demand, revenue growth, margins, net profit, dividend, debt burden, asset quality, corporate governance, management capacity etc. will be considered for a detailed analysis of a company.

Accumulating all the information and using subjective judgment based on own knowledge, analysts will forecast future earnings of a company.

Finally the most suitable valuation method will be used to find out the intrinsic value of a company which will ultimately indicate the return potential from that investment within a specified time period.

- **Fixed Income Securities Investment Analysis:** While selecting from fixed income securities, IDLC AML will consider the following factors:
  
  i. **Interest rate outlook:** Fixed income securities are mostly vulnerable to changes in interest rates. Prices of fixed income securities are inversely related to the interest rates i.e. price falls when interest rate increases, while the reverse happens when interest rate falls. Therefore, interest rate scenario of the country will be monitored on continuous basis.
  
  ii. **Credit Rating:** Credit rating indicates the ability of an organization to fulfill its financial commitments. Credit rating agencies assign ratings to companies and financial instruments depending on its capacity to meet its debt obligations. IDLC AML would invest in investment grade securities which refer to high credit rating.
iii. **Liquidity:** Fixed income securities are available with different tenors. The longer is the maturity term, the lower is the liquidity. When investing in such securities liquidity is an important factor to consider.

#### 4.4 Investment Scenario Analysis

Asset allocation between income generating assets and growth assets is a critical function for a balanced fund. It is proposed to continuously monitor the potential for both fixed income securities and equities to arrive at a dynamic allocation between the asset classes. The portfolio of income generating and growth assets would be managed as per the changing conditions of market scenario and interest rate. Under normal scenario with stable index and interest rate, the normal allocation between growth assets and income generating assets of IDLC Balanced Fund will be 60% and 40% respectively. However, the allocation may vary within ±20% band depending on the changing market and interest rate conditions. Below is a simplified depiction of the changes in portfolio composition for illustration purpose. In reality, the changes are much more dynamic and complex.

- **Volatile market scenario with stable interest rate:**

  Assuming that interest rate will remain stable, the portfolio composition of the fund will change relative to the changing conditions of the market. The market can be stable or there can be Bull Run or Bear Run in the market.

  A bull market is a period of several months or years during which asset prices consistently rise. One common measure is that a bull market exists when at least 80% of all stock prices rise over an extended period. Another measure is that a bull market exists if market indices rise at least 15%.

  During Bull Run, prices go up resulting in capital gain. Therefore, IDLC AML would reshuffle the portfolio composition giving greater weight to the assets with capital appreciation potential.

  A bear market is a condition in which securities prices fall and widespread pessimism causes the stock market’s downward spiral to be self-sustaining. Investors anticipate losses as pessimism and selling increases. Although figures vary, a downturn of 20% or more from a peak in multiple broad market indexes, over a two-month period is considered an entry into a bear market.

  During Bear Run, securities face price correction and thus limiting the return opportunities through capital appreciation. In that case fixed income securities would become more attractive investment choice and IDLC AML would reshuffle the portfolio accordingly.
Volatile interest rate scenario with stable market:
Assuming that market index will remain stable, the portfolio composition of the fund will change depending on the interest rate movement. Generally, interest rates move due to couple of reasons including central bank’s policies, inflation, demand and supply of money etc. During rising phase of interest rate, the allocation to the income generating assets may rise by investing in fixed income securities which promise higher fixed income. On the other hand, the reverse may happen during the declining interest rate scenario.

Figure 03: Volatile market scenario with stable interest rate
4.5 Investment Execution Strategy

After thorough investment analysis there are a number of factors that IDLC AML would consider for the execution of investment decision.

- **Momentum**: Momentum is the rate of acceleration of price or volumes. While investing in listed security, momentum of that particular security is an important issue to consider for executing investment decision.

- **Market Sensitivity**: Some securities are highly sensitive to the market movement reflecting a higher beta and vice versa. Such relationship with market needs to be identified for higher risk adjusted return.
- **Margin of Safety:** Margin of safety is a principle of investing in which a security is purchased when the market price is significantly below its intrinsic value. This difference allows an investment to be made with minimal downside risk. For example, if an investor pays BDT 9.00 for a security that s/he believes to be worth BDT 10.00 her/his margin of safety is \(1-(9/10)\)= 10.00%. The more is the margin of safety, the less is the downside risk.

- **Liquidity:** When investing in a comparatively illiquid security, proper caution will be taken so that price of the security does not move abruptly to evaporate the return potential. For example, if the average volume of a security traded is 1000 shares per day and the fund aims to buy or sell around 100,000 shares of that security, it would be very difficult to execute the trade and price of that security will move sharply hampering the targeted return from that investment.

- **Change in Fundamentals:** Once the fund invested in a particular security, that security will be continuously monitored for any change in the fundamentals on which the investment decision was made at the first instance and act accordingly.

- **Portfolio Rebalancing:** IDLC AML will be flexible and vigilant enough to look for other investment alternatives with higher return potential and reshuffle the portfolio accordingly.

### 4.6 Procedure followed for Investment Decision

- IDLC AML has qualified team of investment analysts who will conduct thorough macro level and scrip level analysis to identify investment opportunities with attractive risk adjusted return potential.

- IDLC AML has engaged sector specific fund managers who will further evaluate the investment opportunities recommended by investment analysts. The investment decisions recommended by fund managers will be subject to the final approval of the Investment Committee (IC).

- IDLC AML has an Internal Investment Committee comprising of the Managing Director, Portfolio Managers and the Investment Analysts who meet at periodic intervals. The Investment Committee, at its meetings, reviews the performance of the portfolio and general market outlook and formulates broad investment strategy. The IC is responsible for ensuring that the investments are made as per the internal / regulatory guidelines, Scheme investment objectives and in the best interest of the unit holders of the respective scheme.

- The Managing Director makes a presentation to the Board of IDLC AML at each of its meetings indicating the performance of the schemes. The performance of the schemes is reviewed by the Board with reference to the appropriate benchmarks.

- At periodic interval, Managing Director presents the performance of the scheme to the trustee.

5.1 Risk of Investment

Investors should know that IDLC Balanced Fund is not a guaranteed or assured return scheme and the past performance of the Sponsor and their affiliates / AMC does not guarantee future performance of the Scheme. The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns. Investing in the IDLC Balanced Fund involves some general risks and some scheme specific risks that investors should carefully consider before investing in the Fund.

General Risk Factors:

I. Due to the fluctuation of the price / value / interest rates of the securities in which Scheme invests, the value of investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets.

II. Government policy and tax laws may change, affecting the return on investments of the fund, which may eventually affect the NAV and return of the Units.

III. Large number of redemption requests may lead to an asset-liability mismatch and therefore may require the investment manager to make a quick sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

IV. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme remain idle and no return is earned thereon. The inability of the Scheme to make intended securities purchases and sales, due to settlement problems, could cause the Scheme to miss certain investment opportunities.

Scheme Specific Risk Factors:

Some of the specific risk factors related to the Scheme include, but are not limited to the following:

Risk factors associated with investing in equities and equity related instruments:

I. Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis.

II. Securities, which are not listed on the stock exchanges, are illiquid in nature and entails higher liquidity risk, in comparison to securities that are listed on the exchanges.

III. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges.

IV. Despite careful investment selection of companies in the Fund, if the companies fail to provide the expected dividend or fail to disburse the dividends declared in a timely manner, this will impact the income of the Fund and the overall return of the Fund.

Risk factors associated with investing in Fixed Income Securities:

I. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market instruments, will be affected by changes in the general level of interest rates.

II. Money market instruments lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.

III. Investment in debt instruments are subject to credit risk i.e. the risk of an issuer’s inability to meet interest or principal payments on its obligations, which may have their credit ratings downgraded. Changes in financial conditions of an issuer or changes in economic and political conditions specific to the issuer are factors that may affect an issuer’s credit quality and security values.
IV. Government securities have price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.

V. As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates and are subject to default risk of the issuer. Therefore, the interest rate risk of zero coupon securities is higher.

VI. Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

5.2 Riskometer

IDLC AML introduces “Riskometer” which is a graphical representation of the riskiness of the scheme. “Riskometer” will indicate how much risk an investor needs to assume when investing in the product. There are five levels of risk on “Riskometer”, ranging from low to high. As the risk of equity can be softened to some extent through investment in fixed income securities and income generating equity, IDLC Balanced Fund is categorized as moderately high on the meter.

5.3 Risk Control Mechanism

IDLC Balanced Fund aims to generate better risk adjusted return for the investors through a combination of current income and capital gain. As the Fund will invest in both equity and fixed income securities, it is very important for the fund manager to understand all the associated risks with the investment securities and establish proper control mechanism to minimize those risks. IDLC AML has engaged qualified investment professionals who have thorough knowledge about the downside risks of investment securities and would analyze all the publicly available data to discover the actual risk adjusted return of the securities. Apart from a well-qualified fund management team, there will be policies to check the investment risks.

- IDLC AML’s internal investment philosophy, which prioritizes good governance and adequate management capacity in case of investment decision, will immune the fund from investments in poorly governed investment securities.
To minimize the downside risk of an investment, IDLC AML would maintain proper margin of safety during investment.

To mitigate the default risk of securities, IDLC AML would evaluate the credit fundamentals of each investment opportunity. The AMC utilizes ratings of recognized rating agencies as an input in the credit evaluation process.

An interest rate scenario analysis would be performed on an on-going basis based on which the Fund Manager would manage the investments of the Scheme on a dynamic basis to exploit emerging opportunities in the investment universe and manage risks at all points in time.

Liquidity risk will be addressed by properly assessing the ease of convertibility of the asset into cash.

5.4 Who To Invest

I. Individuals should attain proper knowledge about the functioning of capital markets before applying for the units of the Fund.

II. Individuals who are looking for long-term capital growth and dividend payment and are comfortable with the risk associated with equity investments should consider investing in the Fund.

III. An individual may also consider investing in the Fund if s/he can accept variability of returns, have a moderate to high tolerance for risk and is planning to invest in the Fund over the medium to long term.

IV. Considering other factors like the investment opportunities available in the market, return expectation, income level & consumption pattern, one may put only a limited portion of his / her investment portfolio into the Fund.

V. Individuals are highly recommended to go through the full prospectus to make an informed investment decision.

i. The Units of the Fund may be bought / repurchased through IDLC AML and authorized selling agents appointed by IDLC AML from time to time and any other procedure as prescribed by the Asset Manager.

ii. Application must be made by an individual (both resident and non-resident), a corporation or company (both local and foreign), a trust or a society (registered in or outside Bangladesh) and not by a firm, minor or person of unsound mind. Applications from the Insurance Companies, Financial or Capital Market Intermediaries or any other Companies must be accompanied by Memorandum and Articles of Association.

iii. Joint application by two persons is acceptable. In such cases, registration and issuance of “Confirmation of Unit Allocation” will be in favor of principal applicant while dividend and other benefits, if any, will be addressed to bank account of principal applicant mentioned in the application form/bank account mentioned in BO account. In case of the death of any of the joint holders, only the survivor shall be recognized as having any title to the Units. On death of both the joint holders, the title to the Units will bestowed upon the nominee mentioned in the application form.

iv. Minimum purchase amount during public subscription is –

- For individual investors: BDT 5,000.00 (Five Thousand Taka) against 500 units
- For institutional investors: BDT 50,000.00 (Fifty Thousand Taka) against 5,000 units

The minimum subscription amount for the individual or institution may change in the future upon due approval from the trustee.

v. Application for purchase of Units should be accompanied by an account payee cheque / pay order / bank draft in favor of “IDLC Balanced Fund” for the total value of the Units.

vi. After clearance / encashment of cheque / pay order / bank draft, the applicant will be issued with a “Confirmation of Unit Allocation” against every purchase of Units he / she / the institutional investor applies for.

vii. Partial surrender is allowed without any additional cost subject to minimum surrender quantity is 500 Units for individuals and 5,000 units for institutions. Upon partial surrender, the Unit holder(s) will be issued with a new "Confirmation of Unit Allocation" representing the balance of his/her/their Unit holding.

viii. The Units may be transferred by way of inheritance/gift and/or by specific operation of the law. In case of transfer, the Fund may charge a nominal fee as decided by the Asset Manager from time to time except in the case of transfer by way of inheritance.

ix. Dividend may be delivered in cash or by way of Units under Cumulative Investment Plan (CIP) as the applicant gives option in the application form.

x. All payments/receipts in connection with or arising out of transactions of the Units applied for shall be in Bangladeshi Taka.

APPLICATIONS NOT IN CONFORMITY WITH THE ABOVE REQUIREMENTS ARE LIABLE TO BE REJECTED

The Units of IDLC Balanced Fund, hereinafter referred to as the Fund, may be bought through IDLC Asset Management Limited (IDLC AML) and authorized selling agents appointed by IDLC AML from time to time.

Surrender of Units is allowed only through IDLC Asset Management Limited or the selling agents appointed by IDLC AML.

Application may be made by an individual (both resident and non-resident), a corporation or company (both local and foreign), a trust or a society (registered in or outside of Bangladesh) and not by a firm, minor or unsound mind.

Joint application is acceptable by two persons. Registration and Unit allocation will be in favor of the principal applicant while dividend and other benefits, if any, will be addressed to the bank account of the principal applicant mentioned in the application form. In case of the death of any of the joint holders, only the survivor shall be recognized as having any title of the Units. On death of both the joint holders, the Units will bestow upon the nominee.

Minimum purchase amount of the individual investor is 500 (five hundred) Units and for institutional investor is 5,000 (five thousand) Units.

Application for purchase of units should be accompanied by account payee cheque/pay order/bank draft in favor of "IDLC Balanced Fund".

After clearance/encashment of cheque/bank draft/pay order, the units will be allocated to the applicant against every purchase with a denomination of number of units he/she applies for. The units will be delivered to the unit holder's BO A/C in demat form.

Partial surrender is allowed subject to minimum surrender quantity is 500 (five hundred) units for individuals and 5,000 (five thousand) units for institutions. Upon partial surrender, the Unit holder will be issued with a new Confirmation of Unit Allocation representing the balance of Unit Holding.

The Units may be transferred by way of inheritance/gift and/or by specific operation of the law. In case of transfer, the Fund may charge a nominal fee as decided by the asset manager from time to time except in the case of transfer by way of inheritance.

Dividend may be delivered in cash or by way of Units under Cumulative Investment Plan (CIP) as the application mentioned in the application form.

All payments in connection with or arising out of transactions in the Units hereby applied for shall be in Bangladeshi Taka.

I/we confirm that I/we have received the Confirmation of Unit Allocation mentioned above and also that I/we agree to abide by the terms cited above as may be altered, replaced and modified from time to time by IDLC Asset Management Limited.
